How system works?

In case of an emergency such as an opening of vehicle's door in secure mode, system will auto generate call or SMS to registered cell phone number and provide information regarding vehicle.

In case of any emergency owner will be able to turn off vehicle's engine.

Owner can also restore the system in normal state by just issuing coded instructions.

1. Do we need SIM to operate this system?

Yes, we highly recommend Ufone or Telenor prepared or postpaid SIM.

2. Is there any monthly or annual fee for this system?

No, there is no monthly or annual charges. System costs only one time.

3. Is system compatible with all vehicles?

Yes, it is compatible with almost all the vehicles.

4. What is the warranty?

1 Year warranty is offered complementary which can be extended at the rate of Rs.3,000/- per annum after completion of initial warranty.

5. Is system transferable to another vehicle?

Yes, it is transferable by paying transfer fee of Rs.3,000/-.

7. What if my cell phone is snatched with the vehicle?

If the cell phone is snatched with the vehicle you can use any other cell phone via message.

8. How difficult is it to operate or use?

It is as simple as sending or receiving SMS or loading a scratch card.

9. How to recover vehicle after it is snatched?

You can recover vehicle easily after it is snatched, because whenever door of vehicle is opened in protected mode, vehicle's engine will shutdown after forty second and can recover vehicle easily by location given by system generated call or SMS.

10. What is the range, can I operate it from outside the city?

Yes, you can operate system from outside of the city as well as from any location in the world.
